The restaurant offers a wide range of options on their menu, including gluten-free hot dogs, burgers, and other comfort foods. The staff is knowledgeable about celiac disease and cross-contamination, providing a sense of confidence for gluten-free diners. The atmosphere is welcoming, and the service is attentive. The portions are generally good, but some customers have noted a recent decrease in size with a corresponding increase in price. Overall, the food is tasty, with standout items like the maple bacon sweet potato fries and the 28-day matured highland beef burgers. With dedicated gluten-free fryers and delicious burger buns, Bread Meats Bread provides an enjoyable dining experience for individuals with dietary restrictions. The restaurant also caters to families, with kids' burgers being just as generous as the adult portions. Despite some pricing concerns, the quality of the food and service at Bread Meats Bread is highly recommended.
