Our Cheese story

David & Anne Brown founded Milawa Cheese Company in the historic Milawa Butter Factory in 1988, and then they set out to make delicious Australian farmhouse cheeses inspired by European methods.

There was no hesitation about the first cheese we wanted to make. It had to be blue. A blue unlike any currently then being made in Australia, a creamy soft blue that tickled the palate and married perfectly with a ripe pear. Yep, just like the one we had on the menu in Northern Italy. Why couldn't we make that cheese?

Hubris is a wonderful thing. Lack of knowledge and untested self-belief, it took years before we could reliably make Milawa Blue, and it still, as good a cheese does, responds to the seasons, in that when the milk is best suited the cheese is better.

We also wanted to make a washed rind cheese, common in different areas of Europe, but not then produced in Australia, probably because it is undeniably a smelly cheese, with a full rich flavour quite unlike the English inheritance of firm Cheddar style cheese which was mostly made in big factories.

Our King River Gold and Milawa Gold were developed next. Each cheese style was developed by adapting "recipes" to suit our cheese making conditions, milk, climate, etc. The cheesemaker's passion and skill is an absolute given, though customer feedback was also an invaluable resource. This was garnered from customers who were able to track us down to the little shop at the back of the factory that came into being on the 24th of December 1988.

How things have grown since those first early days! Twenty-two years on and we now make a wide variety of cheese from local goat and cow's milk producers and have a large showroom and tasting facility that is recognized in a Lonely Planet Guide to Australia as "an absolute must stop in the Milawa Gourmet region. It excels at soft and washed rind cheeses."

Thank you for visiting us
